## Success Skills Webinar Series

### Work Readiness

Bite-Sized Learning (30 minutes or less)

**Grades 8-12**

JA's Success Skills webinar series aims to enhance resilience, build transferable skills, and support the success of students. The Success Skills webinar series helps to explain resilience and identify critical skills to enhance one's ability to be successful.

#### After participating in the webinars, students will learn:

- What it means to be resilient
- How to build a toolkit of resources to enhance resilience
- Practical, transferrable tools to build their resiliency
- What success means
- How to leverage a resilient mindset to achieve success

**Access the webinars at**  
**[jacampus.org/success-skills-webinars/](https://jacampus.org/success-skills-webinars/)**

**Webinar 1  
Resilience**

Students learn to build resilience, navigate setbacks and identify strengths.

**Webinar 2  
Transferable Skills**

Students learn relevant skills that can be used to adapt to different situations.

**Webinar 3  
Stories of Success**

Students have the opportunities to be inspired by real-life success and experiences.

The webinar series has been developed in collaboration with JA Canada's Mental Health Partners Advisory Group. The three-part series features conversations with industry and subject matter experts and includes stories of success of those who have leveraged skills to build resilience.

**Webinars feature presentations from experts, youth advisors and professionals in medicine, education and social work.**
